Severe Weather Outlook

Friday, February 02, 2018

Hazardous Weather

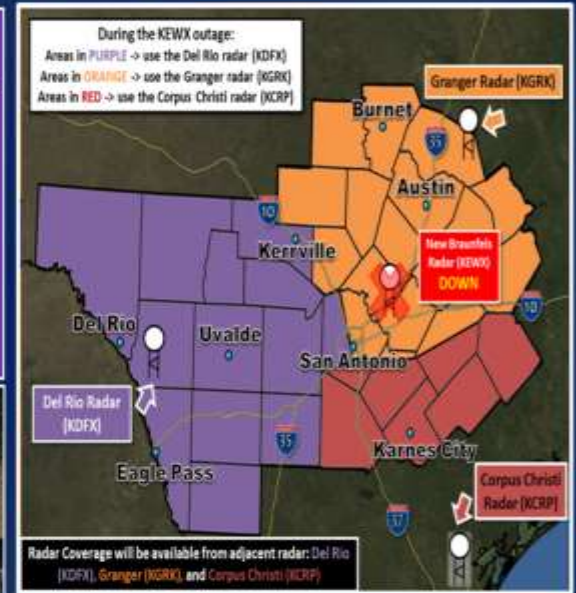

Windy and dry conditions will be present on Saturday across much of the area with a Fire Weather Watch in effect for the northern and northwestern Permian Basin, the Guadalupe Mountains, and Loving County.

New Braunfels Radar (KEWX) – OUTAGE – Jan 28 – Feb 2

Why are we doing this?

- It's getting old! The KEWX radar was commissioned January 19, 1995 (Making the radar 23 years old)
- Service Life Extension Projects (SLEP) over the next 5 years are designed to keep our radar operational into the 2030s.
- Joint investment by NOAA NWS, U.S. Airforce, and FAA.

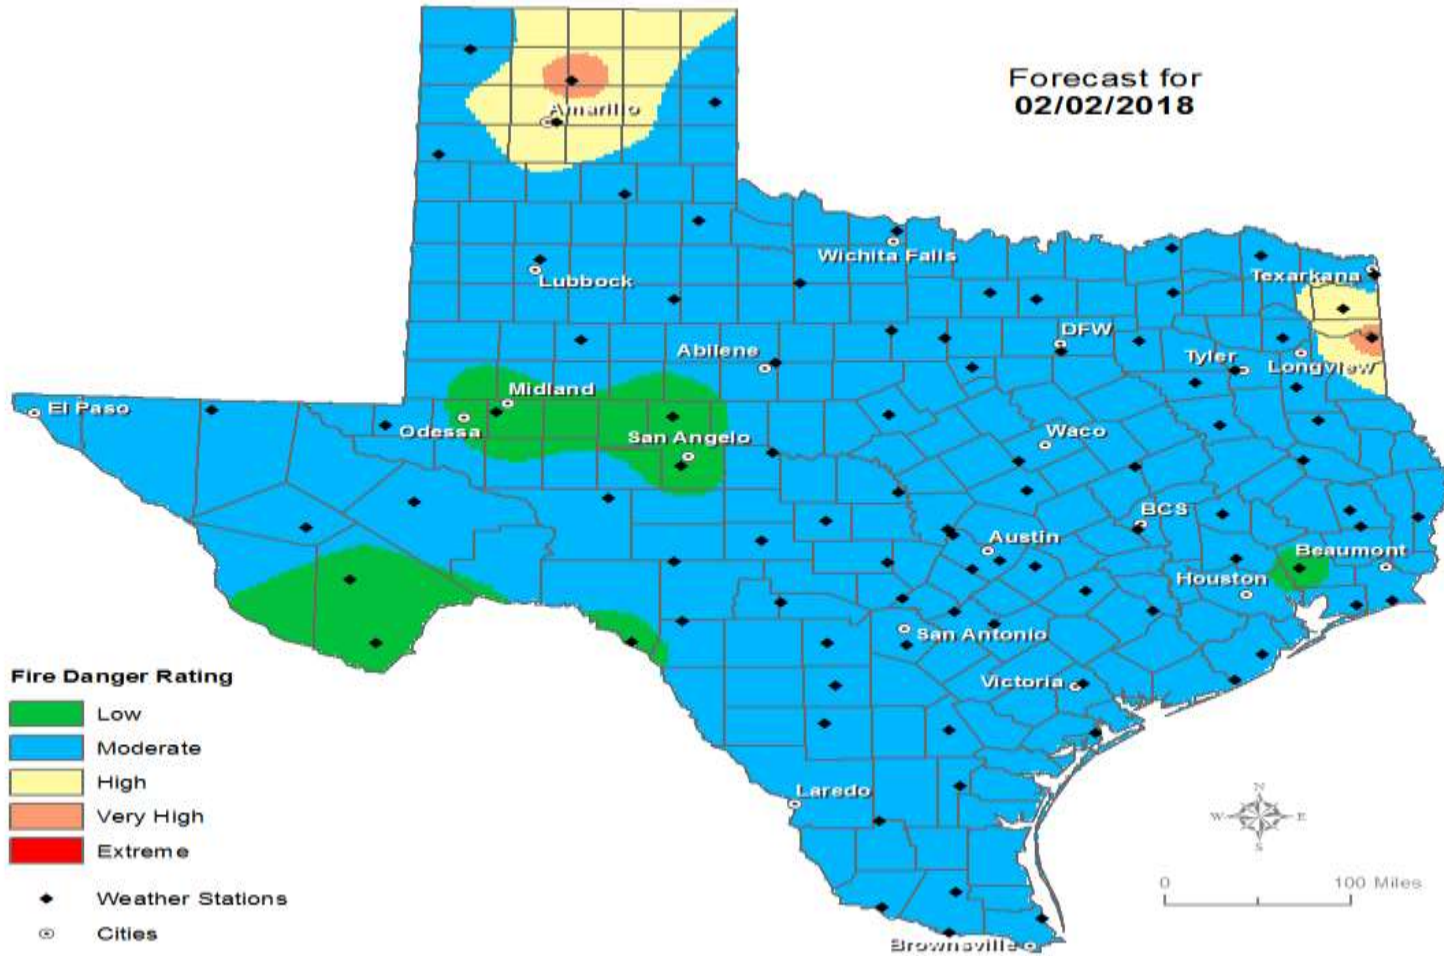

The KEWX radar will be down all of next week (January 28th - February 2nd) to undergo important maintenance. While the radar is down, you can still utilize the surrounding radars of KCRP, KGRK, and KDFX.
